| ETHICS | WHAT ARE THE IMPLICATIONS OF USING AI FOR THIS PROJECT?<br>Using AI increased efficiency and productivity, but it also introduced a risk of factual errors in the implementation and documentation. | WHAT STEPS ARE WE TAKING TO MITIGATE ERRORS OF AI FOR THIS PROJECT?<br>We manually checked all AI outputs and confined usage to bite-sized code pieces to make validation easier. |

WHAT STEPS ARE WE TAKING TO MINIMIZE THE CHANCE OF HARM OR INAPPROPRIATE USE OF AI FOR THIS PROJECT?

AI was limited to polishing what was already there, avoiding from-scratch generation to keep risks low.
